Miles College Receives Reaffirmation of Accreditation by SACSCOC

The College achieved a ten-year reaffirmation of its accreditation with no recommendations for improvement by SACSCOC. This is historic! This stellar achievement demonstrates the exceptional quality and value of a Miles College education.

President Bobbie Knight received the message by a phone call from SACSCOC on Thursday, June 15, after the accrediting body's board of trustees meeting. The official announcement will be made in December of this year during the SACSCOC annual meeting.

As part of the reaffirmation process, visiting teams composed of administrators and faculty members from peer institutions evaluated Miles College. The reaffirmation process included a Compliance Certification Report, a Quality Enhancement Plan (QEP), Off-Site and On-Site Reaffirmation Reviews, and finally, a Review by the SACSCOC Board of Trustees. The process assesses all aspects of the College, including academic programs, student services, and finances.
